About the Lecture

In 2018 the Polish People's University is celebrating the centennial jubilee of its active work and devoted service to American Polonia in Philadelphia. PUL was founded in 1918 in response to the needs of Poles who had come from Poland to America in search of better, decent living conditions. From the beginning PUL ran lectures and training, and it soon became a social and cultural center. PUL's activists of that time understood that the native Polish language is what guarantees the unity of Polonia and its rallying around the program. That is why PUL's program is conducted in Polish, although lectures in English are becoming more and more frequent, in order to widen the circle of listeners in keeping with the present demands of the times. PUL's mission is still to care for the Polish language, cultivate national traditions, and promote Polish history.

The program of the Jubilee Ceremonial Session includes addresses by PUL activists and invited guests. A Jubilee Program presenting the history of this prestigious and distinguished educational institution and its sponsors is to be published. A list of the eminent speakers who have appeared at PUL over the years will be presented.

The ceremonial session will conclude with a Jubilee Dinner. An additional program with details will be provided to PUL's audience at a later date. The PUL Board asks its audience to save the date of the Jubilee celebration.
